Narrative Report

The following discussion, which presents results for the first quarter, should be read in conjunction with the accompanying Consolidated Financial Statements and notes thereto. Unless otherwise indicated, all references in Narrative are as of the date presented and the Company does not undertake any obligation to update these numbers, or to revise or update any statement being made related thereto.

First Quarter Update

Throughout the first quarter of Fiscal 2023, JCPenney continued to serve America's hard-working families while furthering its transformational efforts. Capital investments made to enhance both the digital and brick and mortar customer experiences, and the ever-changing, value-minded merchandise offering, resulted in an increase in customer frequency by 500 basis points over last year despite the ongoing economic challenges facing the JCPenney customer. The two most significant categories, Men's and Women's apparel, continued to outpace last year's results, demonstrating the customer's recognition of the value and style being offered by JCPenney. Additionally, customers continued to shift more of their purchases to private-label brands like Liz Claiborne and Stafford, further emphasizing the quality at a great value option that these brands provide. National brands continue to be an important part of the business and performed well in the period with several planned new brands being added later this year.

Although total sales were down in comparison to last year, digital sales further increased as a percent of sales and penetration rates were up over 200 basis points when compared to last year. Credit income declined, which reflects the health of the private-label card portfolio, as more and more consumers are choosing to pay off credit balances.

JCPenney Beauty store rollouts concluded with the final grand opening occurring in early May and ending the year-long transition of the beauty business. Excluding the impact of the beauty transition, comparable store sales for the quarter were down only slightly to last year, despite weaker traffic that has impacted the entire retail industry.

Merchandise gross profit rates improved 120 basis points for the period with margin expansion coming from both channels. Improving inventory efficiency remained a key area of focus and as a result, inventory was down 5% to last year.

Selling, general, and administrative costs declined year-over-year as the entire organization continues to drive greater efficiencies and reduce discretionary spend. SG&A increase as a percent of sales reflect the pressure created by top-line sales declines. Restructuring charges recorded in the period were one-time, non-cash charges specifically related to the transition of JCP Beauty and the final exit of the Sephora relationship.

During the quarter, the Company generated operating cash flow as measured by Adjusted EBITDA of \$56M, allowing for continued self-funding of capital investments aimed at driving long-term growth of the business. The Company recorded a net loss of \$17M during the period reflecting the impact of the \$17M in one-time, non-recurring, non-cash charges that were expensed during the period.

The Company continues to prioritize maintaining a very healthy balance sheet with significant liquidity of over \$1.6B available for use by the Company as of the end of the period and one of the lowest debt leverage ratios in the industry at less than 1.0x.

Notes to Consolidated Financial Statements
(Unaudited)

1. Basis of Presentation and Consolidation

These Consolidated Financial Statements (Unaudited) have been prepared in accordance with generally accepted accounting principles in the United States. The accompanying Consolidated Financial Statements (Unaudited), in the Company's opinion, include all material adjustments necessary for a fair presentation and should be read in conjunction with the Audited Consolidated Financial Statements and notes thereto for the fiscal year ended January 28, 2023. The same accounting policies are followed to prepare quarterly financial statements as are followed in preparing annual financial statements. A description of such significant accounting policies is included in the notes to the Audited Consolidated Financial Statements.

The Consolidated Financial Statements (Unaudited) present the results of the Company and its subsidiaries. All significant inter-company transactions and balances have been eliminated in consolidation. Certain amounts may have been reclassified to conform with current year presentation.

The company is currently impacted by uncertain economic conditions including inflation and labor shortages. Because of these uncertain economic conditions and the seasonal nature of the retail business, operating results for interim periods are not necessarily indicative of the results that may be expected for the full year.

Fiscal Year

The Company's fiscal year consists of the 52-week period ending on the Saturday closest to January 31. Every sixth year, the Company's fiscal year consists of 53 weeks ending on the Saturday closest to January 31. As used herein, "three months ended April 29, 2023" refers to the 13-week period ended April 29, 2023 and "three months ended April 30, 2022" refers to the 13-week period ended April 30, 2022. Fiscal 2023 and 2022 consist of the 53-week period ending February 3, 2024 and the 52-week period ending January 28, 2023, respectively.

2. Long-Term Debt

Unamortized debt issuance costs	(6)	(8)
Less: current maturities	(11)	(4)
Total long-term debt	<u>\$ 481</u>	<u>\$ 488</u>

3. Revolving Credit Facility

The Company is subject to a borrowing base under the \$1,750 million senior secured asset-based revolving credit facility ("Revolving Credit Facility"). As of April 29, 2023, the Company had \$1,650 million available for borrowing with \$16 million borrowed and \$200 million reserved for outstanding standby letters of credit. After taking into account minimum availability requirements, the Company had \$1,270 million available for future borrowings. Subsequent to April 29, 2023, the \$16 million borrowed under the revolving credit facility was repaid in full and there were no borrowings outstanding when the financial statements were issued.

4. Litigation and Other Contingencies

The Company is subject to various legal and governmental proceedings involving routine litigation incidental to its business. While no assurance can be given as to the ultimate outcome of these matters, the Company currently believes that the final resolution of these actions, individually or in the aggregate, will not have a material adverse effect on results of operations, financial position, liquidity or capital resources.

5. Subsequent Events

The Company has evaluated subsequent events from the balance sheet date through June 13, 2023, the date at which the financial statements were available to be issued.
