Consolidated Financial Statements (Unaudited) May 4, 2024 and April 29, 2023

### Penney Intermediate Holdings LLC Narrative Report

The following discussion, which presents results for the first quarter, should be read in conjunction with the accompanying Consolidated Financial Statements and notes thereto. Unless otherwise indicated, all references in Narrative are as of the date presented and the Company does not undertake any obligation to update these numbers, or to revise or update any statement being made related thereto.

### First Quarter Update

During first quarter of Fiscal 2024, JCPenney remained committed to serving America's hard-working families and advancing its transformation agenda. With continuing economic pressure weighing on discretionary income for middle income Americans, the Company focused its efforts on creating a more rewarding shopping experience while continuing to provide quality, affordable fashion and merchandise. Marketing collaborations during the period included an iHeart Radio Country Festival supporting the launch of a Walker Hayes apparel collection and an in-store 3-point shot contest with Shaquille O'Neal to promote the launch of the new rewards campaign announced late in the quarter. The relaunch of the Company's rewards program in late April allows customers new and faster ways to earn reward certificates and early results indicate a favorable response from customers. As a result of these and other marketing efforts, the Company saw an improvement in organic brand search volume trends on google search, drove double digit increases over prior year in rewards members and reported improvements in Net Promoter Scores.

Although overall sales remain under pressure, specific categories of merchandise continued to outperform and exceeded planned results. Overall Women's business was strong, particularly in the areas of apparel, handbags, and shoes. Customers continued to seek the quality and value provided by the Company's private label brands Liz Claiborne and J. Ferrar, with both brands posting strong results and exceeding the Company's first quarter expectations. Continued emphasis on greater availability of inclusive sizing resonated with consumers and all areas of inclusive sizing (big and tall, plus, and petite) outperformed during the period. Overall, the Company's gross profit rates were flat to last year. Improving inventory efficiency remained a key area of focus and as a result, inventory was down 9% to last year.

Selling, general, and administrative costs held flat year-over-year as the entire organization continues to drive greater efficiencies and reduce discretionary spend to offset ongoing sales pressure. Savings were achieved through lower store expenses, lower overall ecommerce expenses, and lower credit expenses. Credit income declined over last year, as a direct result of lower participation income and lower gain share from the profitability of the underlying portfolio.

During the quarter, the Company used cash of \$163M primarily to fund seasonal purchases of inventory and capital expenditures of \$52M for projects aimed at driving long-term growth of the business. The Company reported negative EBITDA of \$3M reflecting the impact of the sales declines that were mostly offset by margin improvement and ongoing cost saving efforts of the Company.

The Company continues to prioritize maintaining a very healthy balance sheet with significant liquidity of approximately \$1.6B as of the end of the period. The Company has less than \$500M of outstanding long-term debt and as of the end of the period had no outstanding borrowings on its line of credit.
